Business & Community Partner

December 7, 2018

Dear Business & Community Partner:

Opportunity is a concept that makes all we do worthwhile. When we can be part of a cause that matters, our contribution is greater than we could ever know.

Silver Team Community Awareness Partnership with CVS Pharmacy for "One Choice Changes Everything" campaign

Coachella Valley High School (CVHS) HOSA – Future Health Professionals represent their school in competition with other schools from around the state and nation in events such as debate, CPR & First-Aid rescue, disaster preparedness, public health, media & writing events. They also raise awareness about healthcare, public & behavioral health issues. Since our 2011 charter, we have claimed six state medals, and in 2016 our first international bronze medal.

Travel & expenses related to each conference is approximately \$300 per student. The Health Academy & HOSA raise funds for their participation in the competitions, though there is always a deficit.

Gold Team Medical Reserve Corps Partnership with Coachella Valley Mosquito Vector Control

The purpose of this correspondence is to request funds in any amount to assist with facilitating travel & accommodations for our team to the **April 2019 California State Leadership Conference** to represent CVHS and our valley. In exchange, our organization can even provide some level of labor or service for your organization.

Please help us with our vital youth health careers programs (checks payable to "CVHS HOSA"). For tax deduction purposes, (public tax deductible non-profit organization) our IRS 170 (c) number is: 33-0765218. Please visit our website to catch a glimpse of what we do – with your help!
